Stop scrolling. Start *showing up.*

A small group needs to converge on a yes/no/maybe in a short window. WhatsApp loses the decision in scrollback. Squad keeps the current state of a plan as a living card — who's in, when, where, expires when.

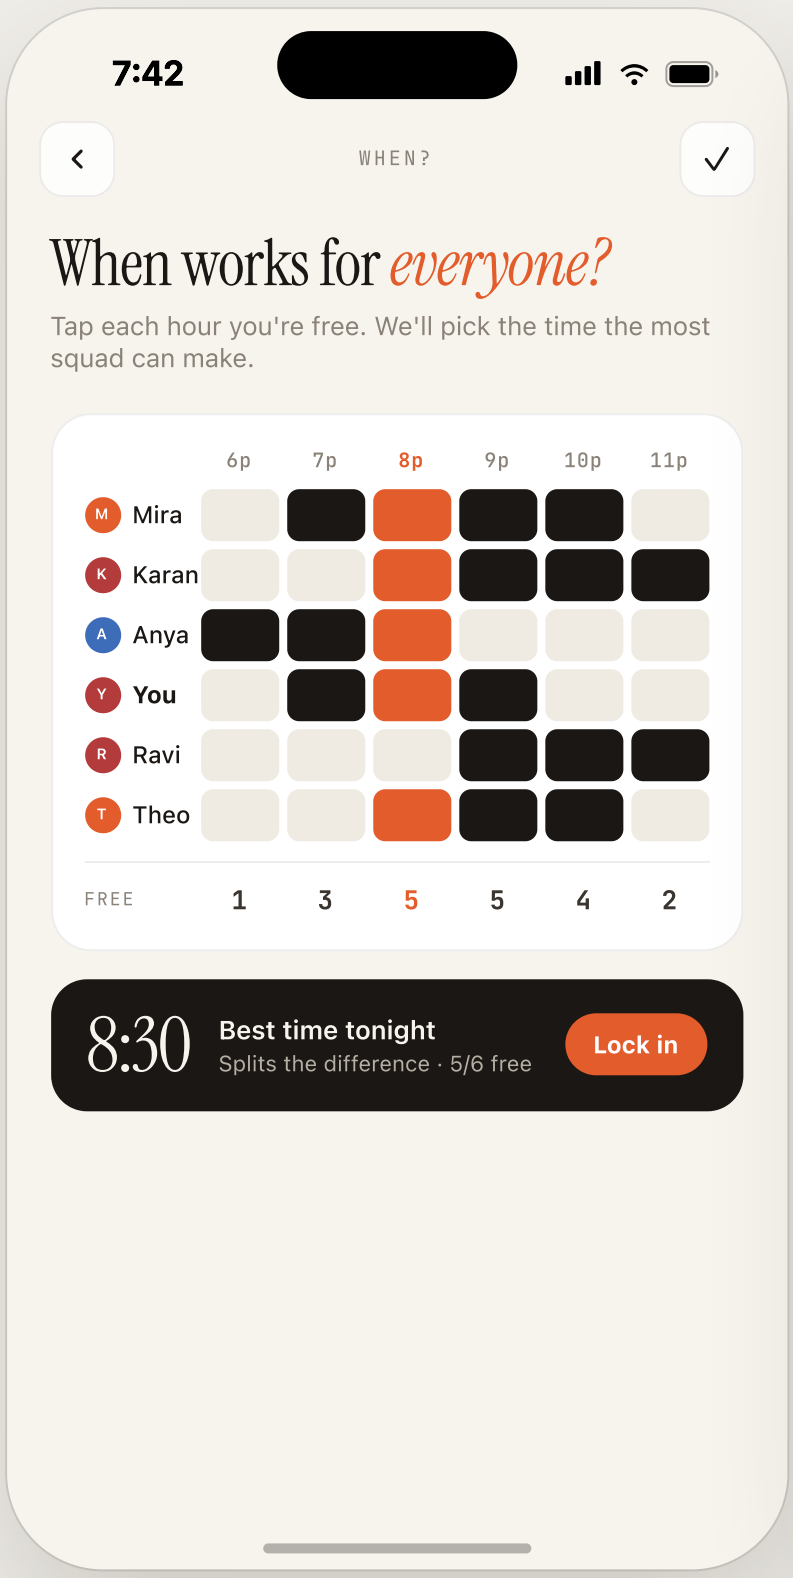
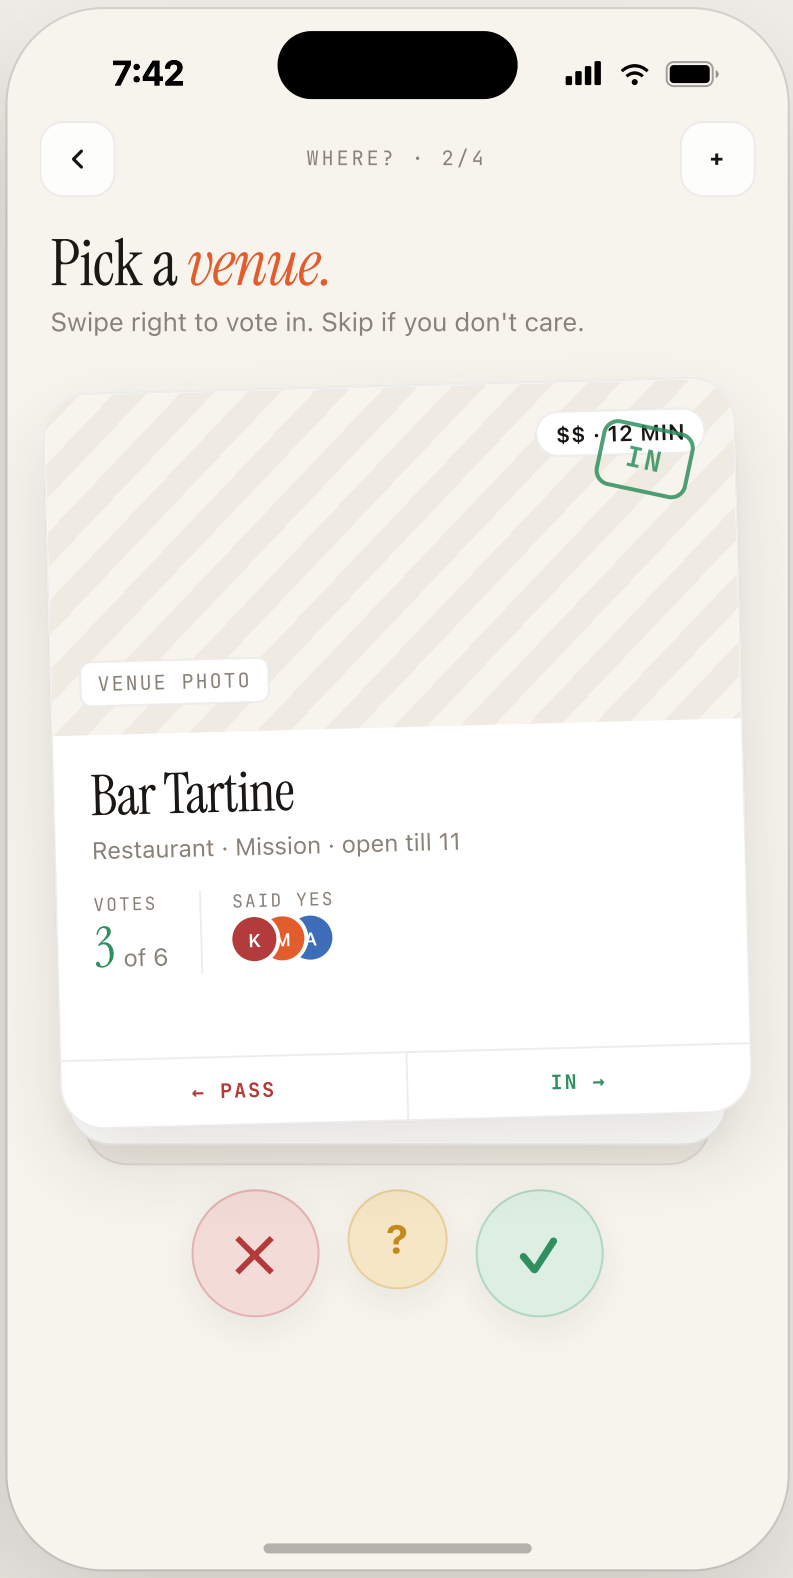
Converging

The interactions that prevent the WhatsApp slide — pick a time, vote on venues, surface conflicts as proposals.

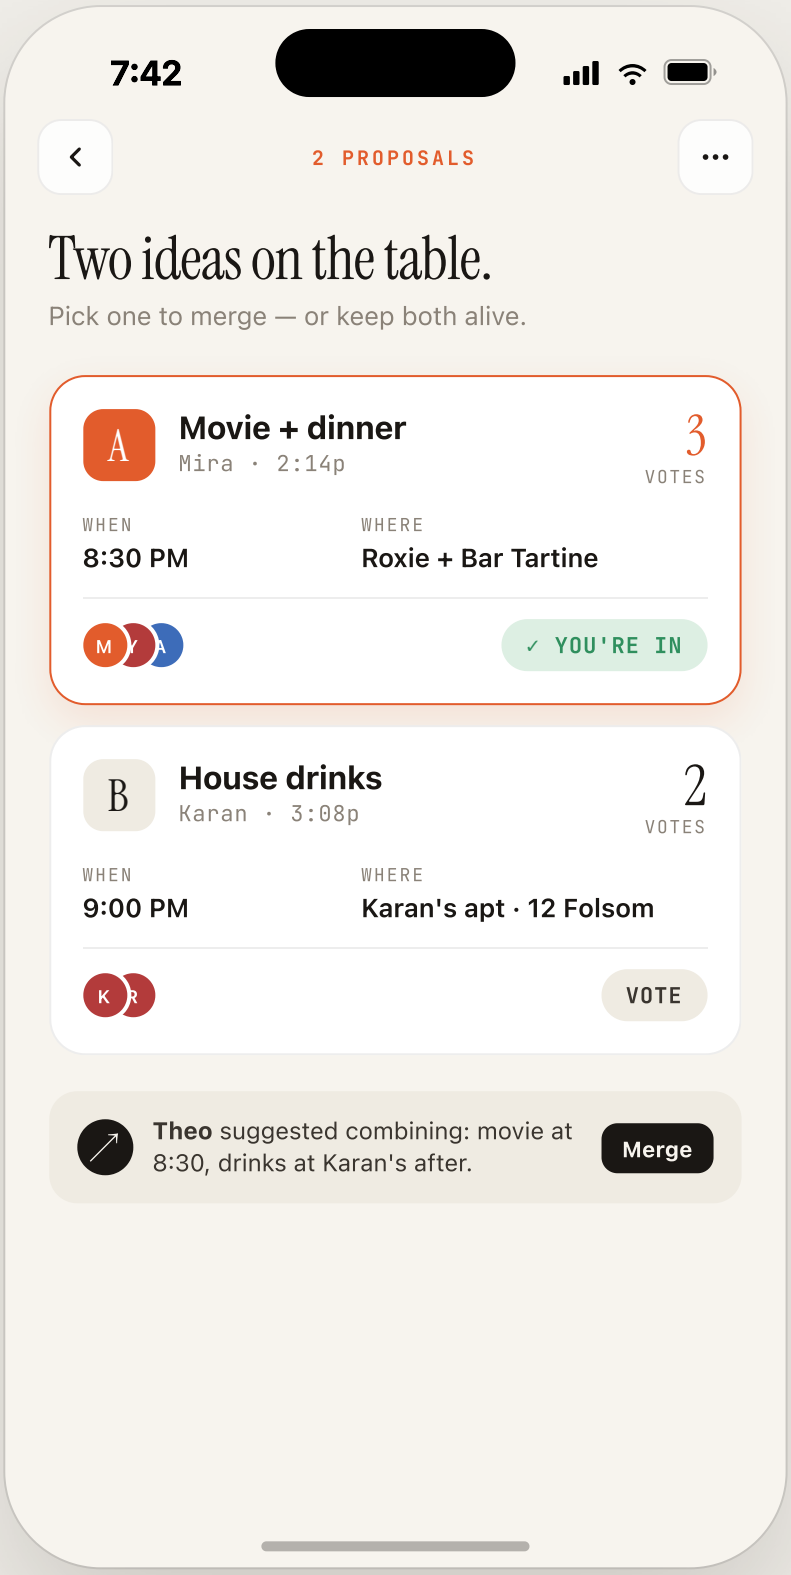
TIME CONSENSUS



VENUE VOTING



COUNTER-PROPOSAL



Resolution

When the squad converges, the plan locks. Decision is preserved — it doesn't scroll away.
